PRIVACY POLICY

EFFECTIVE JUNE 13, 2026

Liftly is an AI-powered powerlifting coaching service. This policy explains what we collect, why we collect it, who we share it with, and the choices you have. We try to keep it plain — no fluff.

01 WHO WE ARE

"Liftly," "we," "us," and "our" refer to the operator of the Liftly application and website (the "Service"). For any privacy question, or to exercise the rights described below, contact us at liftlysupport@gmail.com.

For most of your data, Liftly is the "data controller" (we decide how and why it's used). If you use Liftly through a coach who manages your account, your coach may also be a controller of the training data they review.

02 WHAT WE COLLECT

We collect the following, most of which you give us directly:

- **Account data.** Your email address and authentication details used to create and secure your account.
- **Profile & onboarding data.** Information you enter to calibrate your program — current maxes, training schedule, federation, experience level, weak points, and body metrics such as bodyweight, height, age, and sex (used to compute calorie and macro targets).
- **Training logs.** The sets, reps, loads, RPE ratings, and notes you record during sessions, plus derived metrics like estimated 1-rep max and tonnage.
- **Readiness & wellness check-ins.** Optional self-reported sleep, energy, soreness, stress, and pain flags. This is health-related information that we treat with extra care (see "Sensitive data" below).
- **Form-check media.** Videos of your lifts that you upload for analysis, and the pose, bar-path, and timing data we derive from them.
- **Nutrition data.** Dietary restrictions and preferences you enter, and the calorie/macro targets and meal plans generated for you.
- **Coaching messages.** The content of chats you have with the AI coach, and notes a human coach adds to your account.
- **Usage & device data.** Basic analytics about how you use the Service (pages visited, actions taken, approximate device/browser), collected to keep the Service running and improve it.
- **Cookies.** A session cookie that keeps you signed in. See "Cookies" below.

03 SENSITIVE (HEALTH-RELATED) DATA

Readiness check-ins, pain flags, body metrics, and dietary information can reveal details about your health. Where the law requires consent to process this kind of data, you provide that consent by choosing to enter it. You can skip the readiness check-ins entirely — the Service works without them — and you can delete this data at any time. We do not sell health-related data, and we do not use it for advertising.

04 HOW WE USE YOUR DATA

- To create your account and sign you in.
- To generate and adapt your program, analyze your form-check videos, estimate effort (RPE), and produce nutrition targets and meal plans.
- To power the AI coach chat and the coach console (when you use a human coach).
- To show you progress charts and weekly reviews.
- To maintain, secure, debug, and improve the Service.
- To communicate with you about your account, important changes, or support requests.
- To comply with legal obligations and enforce our Terms of Service.

We do **not** sell your personal data, and we do not use your content to train third-party foundation models for their own purposes (see below).

05 AI PROCESSING

Core features rely on artificial intelligence. To provide them, we send relevant content — for example your training context, chat messages, or form-check analysis data — to our AI provider, **Anthropic** (the Claude API), which processes it on our behalf to generate a response. We instruct our AI provider to process this data only to serve your request and not to use it to train their general models.

AI output can be wrong, incomplete, or not suitable for you. It is informational and not a substitute for professional medical, nutritional, or coaching advice. See our [Terms of Service](#) for the full disclaimer.

06 WHO WE SHARE DATA WITH

We share data only as needed to run the Service. Our service providers ("subprocessors") process data on our behalf under contract:

- **Anthropic** — AI processing for program generation, form-check coaching, chat, and meal plans.
- **Supabase** — authentication and database hosting.
- **Vercel** — application hosting and privacy-focused usage analytics.
- **Your coach**. If you use Liftly through a coach, that coach can view your training data, readiness, form checks, and progress in order to advise you.

We may also disclose data if required by law, to protect our rights or users' safety, or in connection with a merger, acquisition, or sale of assets (you'll be notified of any such change).

07 HOW LONG WE KEEP IT

We keep your data for as long as your account is active. If you delete your account, we delete or anonymize your personal data within a reasonable period, except where we must keep certain records to meet legal, security, or accounting obligations. You can request deletion of specific items (such as form-check videos or readiness logs) at any time.

08 SECURITY

We use reasonable technical and organizational measures — including encryption in transit, access controls, and trusted hosting providers — to protect your data. No system is perfectly secure, so we can't guarantee absolute security, but we work to protect your information and will notify you of a breach where the law requires it.

09 YOUR RIGHTS AND CHOICES

Depending on where you live, you may have the right to access, correct, export, or delete your personal data, to object to or restrict certain processing, and to withdraw consent. You can do much of this from within the app, or by emailing liftlysupport@gmail.com. We won't discriminate against you for exercising these rights. If you're in the EEA/UK, you also have the right to complain to your local data protection authority.

10 COOKIES

We use a small number of cookies that are essential to the Service — primarily a session cookie that keeps you signed in — and privacy-focused analytics that help us understand usage in aggregate. We do not use cookies for cross-site advertising. You can control cookies through your browser settings, though disabling essential cookies will prevent you from signing in.

11 INTERNATIONAL TRANSFERS

We and our providers may process your data in countries other than your own, including the United States. Where required, we rely on appropriate safeguards (such as standard contractual clauses) to protect your data when it's transferred internationally.

12 CHILDREN

The Service involves heavy strength training and health-related data and is intended for adults. It is not directed to children under 16, and we do not knowingly collect their data. If you believe a child has provided us personal data, contact us and we'll delete it.

13 CHANGES TO THIS POLICY

We may update this policy as the Service evolves. When we make material changes, we'll update the "Effective" date above and, where appropriate, notify you in the app or by email. Your continued use of the Service after an update means you accept the revised policy.
